

Message from the Board Chair

On behalf of the Board of Education, Peace Wapiti Regional Division No. 33, it is my pleasure to present the 2001/2002 Annual Education Results Report. This report is intended to inform our stakeholders and Alberta Learning of the progress made and to identify improvement areas to address.

It is our strong belief that the successes of this past year are the product of genuine commitment to collaboration at all levels. Several significant challenges faced our Division this past year, yet together we were able to successfully meet these challenges to the best of our ability to ensure maximum learning and living opportunities for our students.

The results clearly show that there is cause for celebration; likewise there are areas requiring strengthening.

On behalf of the Peace Wapiti School Board, I wish to express my sincere gratitude to everyone involved with the education of our students. Our successes are the product of everyone's efforts.

Lynne Phillips
Board Chair
