

MESSAGE FROM THE SUPERINTENDENT

Results for the 2001-2002 school year, which comprise this report, are based on our Three-Year Education Plan submitted last year. It shows progress made toward achieving provincial and local goals. The results are subsequently used in the development of the next Three-Year Education Plan.

I am certainly pleased with the results, which I believe reflect the dedication of our students and the commitment of our instructional and support staff to provide the best they are capable of for the students in their care.

Like all school boards, we face many challenges. We are confident that with provincial support we can effectively meet these challenges, as we strive to provide the best possible education for the students we serve.
